You may energize, harmonize and protect rooms with this Star Sphere. If you take this sphere with you on your trips, you will be able to create light channels and connections to our Cosmic Brothers & Sisters of Light.

Excerpt from the Channelling by Adonai Ashtar:

This is Adonai Ashtar, shining as bright as the Sun – thousands of star ships are surrounding you, great joy is prevailing. And those Starship Spheres shall radiate this delight: The joyful reunion, the joyful first contact.

Contact is made wherever you put these spheres. We will descend our spaceship to earth and create connections. You may take the Starship Spheres along on your trips or to various places and make this first contact again – after a long time.

In the beginning the original genesis structure of your species was endowed with star codes and light connections to the suns, stars and planets of Light. We restore these connections. Light technicians from our realm will come, reconnect you and reactivate your star codes, the key to space enabling you to regain your abilities, to communicate and interact with us, travel through time, space and light, from star to star, from galaxy to galaxy, back to the Brothers and Sisters of Light ...

Our love is in you and with you; and everyone coming into contact with this Starship Sphere receives a personal light connection to my heart (to Adonai Ashtar) if he so wishes.

Hence I am bundling the rays of all light pioneers – may they propagate around the entire planet and spread their powerful light: Earth, be warmly welcome. Mankind, rise from the dust and head towards the light, towards the truth, return to the Cosmic Brotherhood.
