### **Excerpt from the Channelling by Buddha, the Enlightened Master, and Metatron:**

A Master Soul is always in harmony with the heartbeat of God and the OM, the breath of God. A Master Soul is in unison with this origin and divine tact, the Primordial Source, the Divine and Eternity. A Master Soul bears this divine presence within itself, wherever it may be. Its Divinity is omnipresent.

Such a Master Soul emanates the Eternal Light in infinite radiance, in living movement, in divine liveliness, and suffuses everything around it. The presence of such a Master Soul will touch everything and fill everything with the divine breath, the divine rhythm ...

This Master's amulet in the frequency of the diamond light is able to open this Master Portal within you and therefore you will become increasingly aware of the significance of being a Master Soul on this Earth. It also means that – by wearing this pendant and meditating with it – you will be surrounded by Master Souls. They will lovingly embrace you, manifest their presence in your soul in order to teach you and learn from them.
