### **Excerpt from the Channelling by the Unicorn Devas and Lightlord Metatron:**

#### **The Unicorn Devas Speak:**

We are the Unicorn Devas from the Rainbow Sphere, from the divine realms, from the Garden of Eden. Thousands and thousands of us flood this Earth with heavenly joy. Portals are opening up everywhere on this Earth allowing us, the Unicorns, to stream in and return in great heavenly joy. We come and flood everything down to the core of the Earth with heavenly scents, colours, essences, with our love, joy and the light from the heavenly gardens.

#### **Lightlord Metatron speaks:**

These Unicorns are beings of highest purity. They are more powerful than you can imagine. Just as your Earthly horses represent the strength of the Earth and boisterous wild living, the Unicorns are like the early spring breaking out, full of drive and power.

They help you to rejuvenate all with eternal life out of the heavenly dimensions. In this way, you receive the strength to follow your earthly path each and every day.

They come to those with an open heart to fill them with the purity and radiant strength of the heavens. They bestow upon your hearts the daily drive and motivation to powerfully fulfil your undertakings.

They open and expand your physical bodies to receive the light. They consider every cell a heavenly blossom and infuse them with their heavenly purity, immersed in eternal life.
